The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 12 and 13 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by WO 96/25367. WO 96/25367 discloses a method for making a loose particulate material for use in waste water treatment (see page 1, lines 6-7), which method comprises contacting granules of plastic (see page 8, line 22; and page 12, lines 7-8) with grains of a soluble substance such as sodium chloride (page 8, line 19) at an elevated temperature (page 8, line 22; page 12, lines 26-27), and subsequently dissolving the soluble substance (page 8, lines 28-29; page 12, line 36) to provide the surfaces of the granules with concavities (page 13, line 1) as a habitat for microorganisms effective in waste water treatment (see lines 2-3 of the abstract); and this is all that is required by claims 12 and 13.
